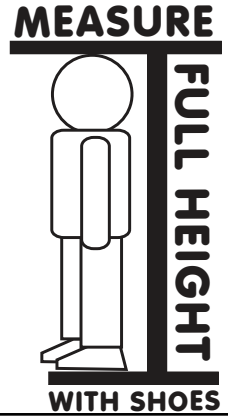
Graduation Gown Worksheet - Elementary * Middle School * High School * College



Use this form to help determine overall quantity and sizes required. If planning a graduation for more than 15 graduates print multiple copies.

Measure graduate's height (with shoes on) from top of their head to floor. Next to the graduate's name, record their height in the appropriate column. All measurements are in feet and inches.

After all graduates are measured, total your quantity by gown size. Total gown sets should equal the number of students graduating. Transfer TOTAL GOWNS by size to the appropriate section on the order form or when ordering online. DO NOT include Graduation Gown Worksheet with your order.

One-size-fits-all caps are expandable - no need to measure.

Full-Fit (Plus Sizes)

If a Full-Fit size is required, check the "Full-Fit" column to the far right of each row. Full-Fit sizes are available only in the sizes shown here. If the Full-Fit box is checked next to an unavailable Full-Fit size, you will be shipped the next larger available Full-Fit size.
